

GREEN CEMENT

Building A Green Future

GREEN CEMENT FACTORY

Green Cement Factory produces GGBS (Ground Granulated Blast-Furnace Slag) with an annual production capacity of 1 million tons. The company is a subsidiary of Shun Shing Group, we are the group's first industrial asset in the UAE.

We are located in Dubai Industrial City (DIC), equipped with the latest VRM technology by Loesche.

Encouraged by UAE's progressive vision of sustainability to be the leader in reducing carbon emissions by it's commitment to green concrete, we have joined in this mission.

We Are Committed To Building A Green Future

GREEN CEMENT VALUE PROPOSITION

Green Cement Factory combines over 30 years of experience sourcing the highest quality raw materials with deep first-hand knowledge of cement production to high-grade sustainable construction materials.

GCF is committed to deliver timely, consistently, reliably, and competitively to all our valued customers.

GREEN CEMENT'S TEAM

We have a technically experienced and qualified team. We believe in a bottom-up approach that empowers each employee to do what is needed to exceed our customer's expectations.

PRODUCT RANGE & BENEFITS

GGBS Platinum and GGBS Gold

(Ground Granulated Blast-Furnace Slag)

GGBS is widely used to enhance the strength and workability of fresh concrete while reducing environmental impact when compared with conventional concrete. The process of manufacturing GGBS requires 20% less energy than the production process of Portland Cement, thereby reducing the concrete's CO₂ output by 10%. Green Cement Factory's GGBS Platinum and GGBS Gold are highly resistant to chloride and sulphate attacks, reducing the risk of corrosion in concrete.

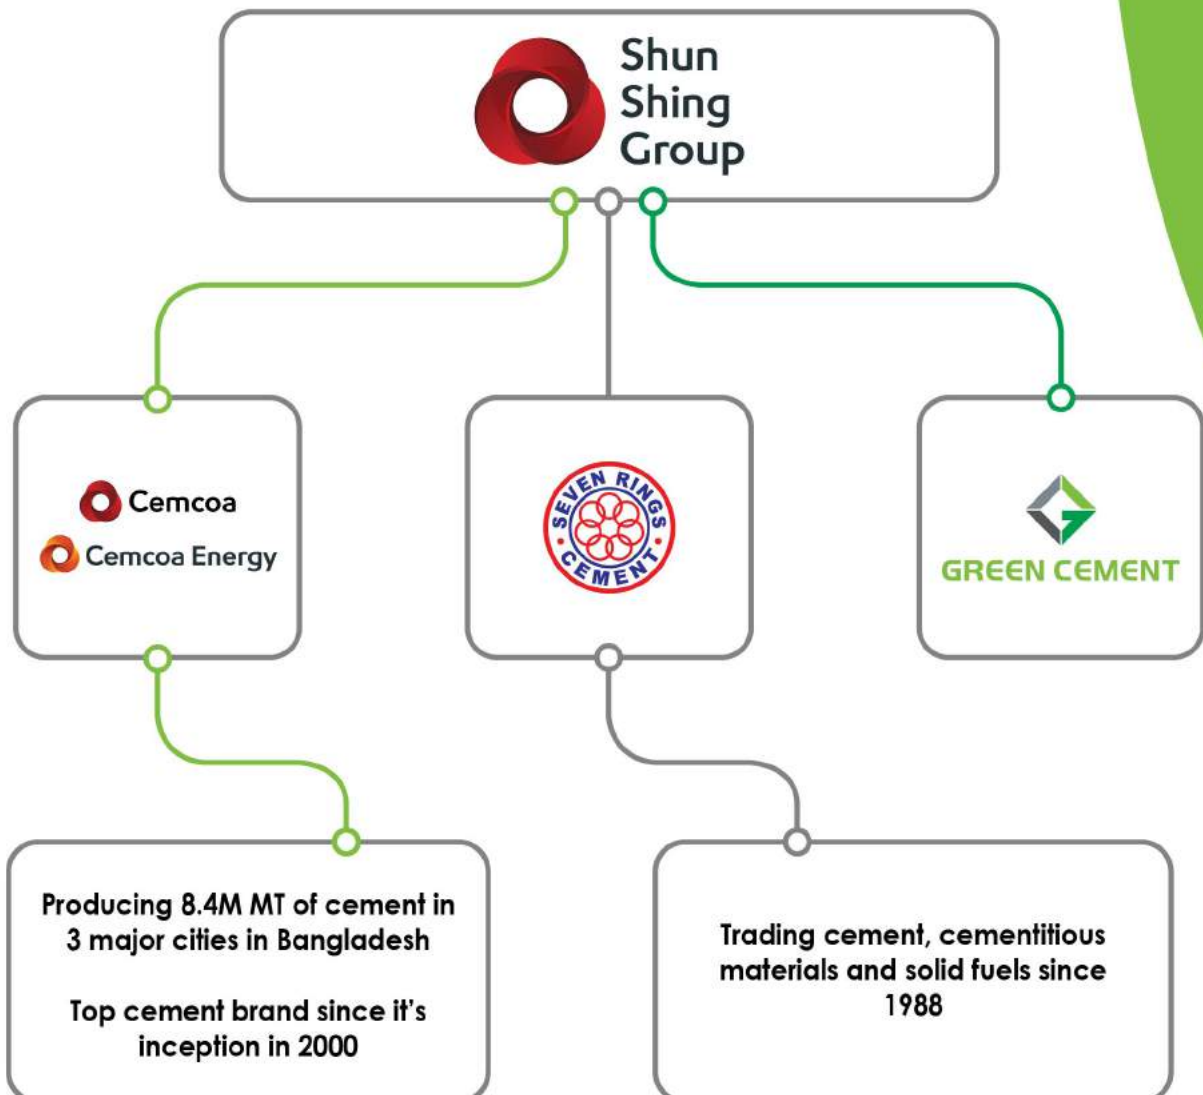

PLANT EQUIPMENT & PRODUCTION CAPACITIES

Vertical Roller Mill	Loesche VRM - Model LM4800 CS2 VRM
Slag GGBS Production Capacity	130 TPH
Bulk Loading Capacity (4 Silos)	200 tons/hr
Rotary Packer	Haver & Boecker Germany - 90 tons/hr
Jumbo Bag Packer	Haver & Boecker Germany - 30 tons/hr

SHUN SHING GROUP

The Group operates cement plants across the Asia-Pacific and the Middle East with a total production capacity of 9.4 Million MT per year. Green Cement Factory (GCF) is fortunate to be supported by Shun Shing Group and all its other subsidiaries. GCF benefits from the group's deep specialized knowledge of international shipping, trading, and manufacturing within the cement industry. The Group's renowned trading company Cemcoa sources all raw materials for GCF. This arrangement secures top-quality and timely delivery of GCF'S raw materials.
